PROFESSIONAL SUMMARY

Technical Writer II with a Computer Science engineering background and over 8 years of experience documenting complex enterprise software, cloud platforms, and developer workflows.

Certified Scrum Master skilled in Docs-as-Code, API reference documentation, and cross-functional Agile delivery.

CORE COMPETENCIES

Documentation & Strategy: Docs-as-Code, Release Documentation, API Documentation, Information Architecture, Process Documentation
Tools & Platforms: MadCap Flare, RoboHelp, Markdown, GitHub/GitLab, AI-Assisted Authoring [OpenAI (ChatGPT, Codex)/Copilot]
Jenkins, AWS S3, Confluence, Swagger Editor, VS Code
Frameworks: Agile / Scrum, CI/CD Collaboration

PROFESSIONAL EXPERIENCE

FORTRA | TECHNICAL WRITER II

CYBERSECURITY | Remote (Canada) | June 2022 - Present

- Own end-to-end documentation deliverables for enterprise Data Loss Prevention (DLP) and Endpoint Security platforms, producing comprehensive administrator guides, deployment manuals, and customer-facing release notes across major releases (Windows, macOS, Linux, Server, Cloud, and Network DLP appliances).
- Leverage generative AI tools (OpenAI, Microsoft Copilot, Gemini) to accelerate technical research, generate structural outlines, refine complex explanations, and audit documentation for clarity and standard terminology. Architect custom agent instructions (AGENTS.md) and reusable skills to automate documentation reviews, audit pull requests against style guides, verify terminology, and accelerate draft turnaround times.
- Build and maintain Docs-as-Code delivery pipelines leveraging Git, Markdown, Jenkins CI, and AWS S3, automating multi-platform build triggers and synchronizing documentation deployments with engineering sprint releases.
- Manage scalable documentation architectures in MadCap Flare, RoboHelp, and hybrid Markdown repositories, utilizing condition tags, shared snippets, and variables to publish multichannel HTML5 WebHelp and PDF outputs.
- Translate complex kernel-level endpoint behaviors, network packet inspection rules, and cloud DLP policies into clear, actionable administrator workflows and root-cause troubleshooting guides.
- Author and maintain developer-facing REST API documentation using OpenAPI and Swagger, detailing authentication flows, request/response payloads, endpoints, and error handling for seamless customer integrations.
- Validate product workflows hands-on in staging environments prior to GA release, identifying procedural gaps early to deflect customer support tickets and improve first-time user onboarding.
- Partner closely with distributed software engineers, QA leads, and product management across North America and India time zones to gather architectural requirements, review pull requests, and ensure release readiness.
- Establish documentation standards, style guides, and PR review checklists while standardizing legacy content into unified, version-controlled repositories to maintain cross-product consistency.
- Drive documentation backlog prioritization, sprint planning, and release burndown tracking within Agile/Scrum delivery cadences using Jira and Confluence.

WALMART | TECHNICAL WRITER (CONTRACT)

CRM Systems | Remote (Canada) | April 2022 - June 2022

- Developed SOPs and knowledge portal documentation for CRM systems supporting customer care agents.
- Standardized document layout, formatting, and content governance across CRM documentation.
- Collaborated with SMEs and PMs to deliver weekly documentation updates aligned with operational timelines.

ZAFIN | TECHNICAL DOCUMENTATION SPECIALIST (CONTRACT)

FINTECH | Remote (Canada) | Dec 2021 - Feb 2022

- Led migration of documentation from Confluence to Doc360, ensuring structured version tracking and content integrity.
- Authored and published customer-facing documentation using Markdown and WYSIWYG editors.
- Managed documentation tasks and reporting using Jira and Tempo.

SPICEMONEY | TECHNICAL WRITER

FINTECH | On-site (India) | Aug 2016 – Dec 2019

- Produced comprehensive user manuals, release notes, API documentation, installation guides, and UI text for fintech applications used by internal teams and end customers.
- Collaborated with cross-functional teams, including developers, QA, architects, and business analysts, to clarify requirements and ensure documentation accuracy.
- Created UML diagrams, sequence diagrams, and process documentation to support product clarity, compliance, and CMMI Level 3 audit readiness.
- Standardized templates, structured authoring practices, and content workflows improve documentation efficiency and version control.
- Participated in release planning, validation, and quality reviews to ensure documentation aligned with Agile release cycles and operational deadlines.
- Supported onboarding of new hires and documentation team members through internal knowledge sharing and process guides.

VOLUNTEER LEADERSHIP

Pet Cancer Foundation | TECHNICAL WRITER - Team Lead (Volunteer)

Remote USA | Jul 2023 – Nov 2023

- Led a team of technical writers in developing documentation layouts and style guides aligned with company standards and branding.
- Designed and maintained spreadsheets for document management to ensure efficient tracking and organization.
- Conducted proofreading, content strategy development, and regular updates to documentation.
- Collaborated with team members to ensure accuracy and consistency across all content.

EDUCATION

Advanced Project Management and Strategic Leadership Post-Graduation

LAMBTON COLLEGE, (Canada) - (2020-2021)

Bachelor of Technology in Computer Science and Engineering

BADDI UNIVERSITY OF EMERGING SCIENCES AND TECHNOLOGY, (India) - (2012 - 2016)

CERTIFICATIONS

- Certified Scrum Master (Scrum Alliance)
- MadCap Flare Advanced Developer (Scott DeLoach, Founder)
- AI & Agility - Scrum Alliance
