

Technical Writer II and Certified Scrum Master

ABOUT ME

"As a Technical Writer with a Bachelor's degree in Computer Science and a postgraduate degree in Advanced Project Management and Strategic Leadership, I bring nearly 7+ years of experience in technical and UX writing, software documentation, and copywriting.

Certified as a Scrum Master and with a background in software engineering, I possess a comprehensive understanding of the Document Development Life Cycle, particularly within Agile methodologies. My innovative approach and tech-savvy nature have been instrumental in navigating the fast-paced world of IT, making me a valuable asset to any team."

EMERGING SCIENCES AND
TECHNOLOGY, (IN)
(2012 - 2016)

PROFESSIONAL EXPERIENCE

FORTRA, US | TECHNICAL WRITER (II) | CYBERSECURITY | JUNE 2022 - PRESENT

- Worked on creating Markdown (MD) files and documentation using Visual Studio Code, practicing doc-as-code to facilitate easier collaboration with developers and the engineering team.
- Collaborated closely with developers, product managers, and internal stakeholders to independently develop, plan, research and deliver high quality technical user documentation, including Release Notes, User Guides, and online help guides.
- Hands-on experience with structured authoring tools such as MadCap Flare and RoboHelp, with additional expertise in web technologies like HTML and CSS to enhance content presentation and ensure web-based documentation is responsive and user-friendly.
- Practiced a hybrid approach by blending documentation tools (MadCap Flare, RoboHelp, MS Word, Confluence) with docs-as-code practices, including Markdown-based README files, version control with Gitlab and Github. Authored and managed documentation outputs, via Jenkins, and hosted documentation on AWS S3 buckets for seamless release management.
- Maintained a centralized repository of historical documentation for previous product releases and performed ongoing updates based on new builds and product improvements.
- Created user-centric content for a developer audience, including emerging threat articles, support matrices, and product knowledge base documentation, using platforms like Confluence, D365 and Drupal CMS.
- Played a key role in rebranding legacy documents using master page templates in MadCap Flare and RoboHelp to align with new visual identity standards. Designed PowerPoint decks to support internal and client-facing feature overviews, contributing to cross-team communication and product education.
- Helped test new features to validate paths, workflows, and interface elements for new features. Documented these features by creating clear, step-by-step workflows and how-to-guides to support end users.
- Collaborated with multiple cross-functional teams across various products under a single brand, ensuring documentation consistency while adapting to each product's functionality. Conducted developer and SME interviews to extract technical insights and translate them into beginner-friendly content.
- Operated within an Agile framework, leading Scrum ceremonies for the documentation team, managing task prioritization via JIRA and Trello, and actively participating in daily sprints and demos.
- Used Slack and MS Teams to stay aligned with ongoing releases and cross-functional initiatives, ensuring seamless information flow across product and documentation teams.
- Documented internal processes, such as the release workflow and rebranding strategies, to support knowledge continuity and team onboarding.

WALMART, CA | TECHNICAL WRITER | CRM | APRIL 2022 - JUNE 2022

- Developed Standard Operating Procedure (SOP) documentation for CRM systems.
- Utilized Oracle Service Cloud for document management.
- Reviewed, proofread, updated, and published technical documents for Walmart's customer care agents, including flowcharts and user-friendly guides.
- Established and enforced company standards for CRM document style, layout, and formats, ensuring adherence to documented standards.
- Managed weekly planning, scheduling, and delivery of documents, uploading them to the CRM system.
- Developed a customer care knowledge portal at Raven, including creating and conducting training for team members.
- Designed the layout and organized documents for the knowledge portal, collaborating with Subject Matter Experts (SMEs), reviewers, and project managers.
- Monitored and updated project progress using MS Planner, SharePoint, and MS Suite.

ZAFIN, CA | TECHNICAL DOCUMENTATION SPC. I FINTECH | DEC 2021 -FEB 2022

- Use Doc360 for documentation, including Markdown and WYSIWYG editors, with exposure to HTML.
- Managed documentation migration from Confluence to Doc360, ensuring accurate tracking of document versions.
- Handled assignments, management, and reporting in JIRA, including work logging in JIRA Tempo.
- Conducted data organization, research, editing, proofreading, and technical content publishing.
- Ensured content and image alignment with organizational layout designs and style guides, leveraging SharePoint/MS Suite and Google Suite.
- Collaborated with the product team via MS Teams, and participated in daily Sprint meetings for updates.
- Created state diagrams, process flows, and timelines using MS Visio and Snagit.

MY TOOLKIT

- Madcap Flare
- RoboHelp
- Visio Studio Code
- Adobe FrameMaker
- Drupal
- GitLab
- GitHub
- Readme.so
- MS-Suite
- MS-Planner
- Trello
- MS-Visio
- MS-Office 365
- Google Suite
- Canva Pro
- Draw.io
- Edraw Max
- Snagit
- JIRA
- Doc 360
- Confluence
- Notion
- Slack
- Eclipse (Object Aid)
- WordPress
- WIX
- Mural
- Figma
- Adobe Acrobat DC Pro
- Agile Methodologies
- Scrum Practices
- Various AI Models (Claude, ChatGPT, Perplexity, Midjourney, DALL-E3, Capcut, etc.,)

ADDITIONAL SKILLS

- Youtube and Instagram content creation.
- Creating videos on tools like DaVinci Resolve.
- Website building on platforms like Wix, Shopify, WordPress and Squarespace.
- Blog Writing.
- Product Photography

MOVIA, CA | SEO & COPYWRITER | MKTG & ADVER | MAY 2021 - AUG 2022

- Researching, proofreading, and creating articles for weekly blogs and OOH Today blog posts for Movia. Working in a team and participating in brainstorming sessions to develop content ideas and strategies for the company.
- Scheduling and publishing blog articles in WordPress and implementing SEO best practices into content writing such as keywords, meta tags, meta titles, meta descriptions, etc.
- Working and managing daily tasks on the Trello board. Managing backlinks and reaching out to companies. Link to published articles [here](#).

SPICEMONEY, IN | TECHNICAL WRITER | FINTECH | AUG 2016 - DEC 2019

- Researched, organized, reviewed, edited, proofread, and published technical documents while adhering to documentation standards.
- Developed and maintained company standards for document style, layout, and formats, ensuring compliance with established guidelines.
- Contributed to projects such as UMANG, creating and maintaining online documentation, video tutorials, onscreen texts, and tracking changes to finalize deliverables.
- Produced various documentation including user manuals, version directories, user stories, release notes, installation guides, API documentation, UI/UX designs, UML and sequence diagrams using Eclipse IDE (ObjectAid UML Explorer plugin) and project backlogs.
- Collaborated closely with project managers, business analysts, QA teams, developers, solution architects, product designers, and subject matter experts.
- Managed team tasks and collaboration using tools like Slack, Trello, MS Planner, and JIRA.
- Utilized Google Drive, Google Docs, and MS PowerPoint for document creation and management, with basic knowledge of Confluence.
- Designed visual content such as flowcharts and infographics to enhance user comprehension, alongside writing clear user interface texts, online help, and product guides.
- Authored training manuals and tutorials to assist end-users with various applications, ensuring content met tight deadlines and complex deliverables.
- Engaged in workflow engineering, including business process flow and organizational design, and participated in CMMI Level 3 compliance and audit checks.
- Managed content creation for blogs and marketing pamphlets on official social media platforms like Instagram, Facebook, and company websites.

VOLUNTEER, PART- TIME and FREELANCE EXPERIENCE

INTERO-INTEGRITY | TECHNICAL WRITER (Part-time) | PIPELINE INSPECTION SYSTEM | FEBRUARY 2024 - MAY 2024

- Developed monthly reports utilizing Microsoft Word and SharePoint.
- Collaborated with Mechanical, Electrical, and Software departments to monitor project progress and complete documentation.
- Ensured all documents adhered to APA referencing style.
- Reported directly to the Global PMO Manager and worked closely with the CTO in the Technology and Research department.

PET CANCER FOUNDATION, USA | TECHNICAL WRITER - Team Lead (Volunteer) | JULY 2023 - NOV 2023

- Led a team of technical writers in developing documentation layouts and style guides aligned with company standards and branding.
- Designed and maintained spreadsheets for document management to ensure efficient tracking and organization.
- Conducted proofreading, content strategy development, and regular updates to documentation.
- Collaborated with team members to ensure accuracy and consistency across all content.

RESUME WRITER and PRESENTATION DESIGN SPECIALIST (Freelance), CA

- Conduct in-depth consultations with clients to gather relevant information about their work history, skills, education, and career goals to create customized resumes. Write and edit high-quality resumes from scratch, ensuring proper formatting, compelling language, and tailoring content to specific industries and job requirements while adhering to resume writing best practices and guidelines.
- Develop visually compelling and effective PowerPoint presentations tailored to clients' needs ensuring clarity. Engage in thorough consultations with clients to understand their objectives and preferences, providing personalized design solutions.
